

ThanTech

EMPOWERING SMART & GREEN FUTURE

ThanTech Product Series

PFC Inductor

Metal Powder Core

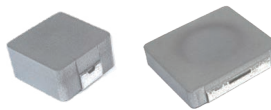

DC/DC Inductor

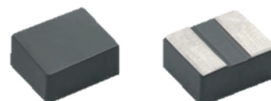

Metal Powder Core

Low Temp Molding

High Temp Molding

Single/Dual/Multi-phase

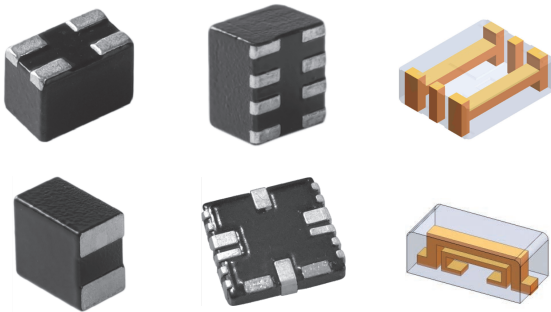

TLVR & Integrated

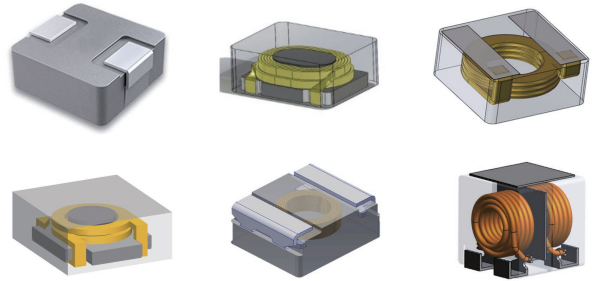

BETTER MATERIALS DEFINE BETTER COMPONENTS

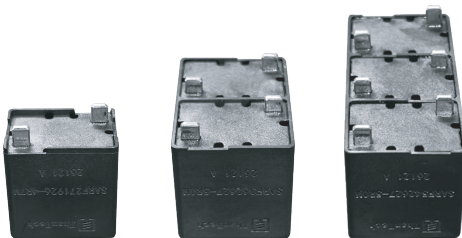

Co-sintering Inductor

Molding Inductor

Packaging Integrated Inductor

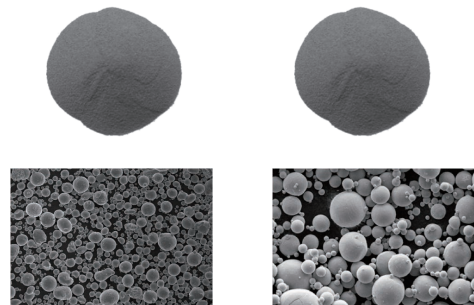

High-power Packaging Inductor

Magnetic Powder Core

Soft Magnetic Alloy Powder

ThanTech, an inductor component supplier with material research and development technology, specializes in designing and manufacturing high-performance inductor components for applications in AI servers, optical modules, photovoltaics, automotive, and other fields. By enriching its material technology reserves and utilizing multiple manufacturing processes, ThanTech achieves inductor components with high power density, high efficiency, and high thermal conductivity.
